RMarkdown Demo

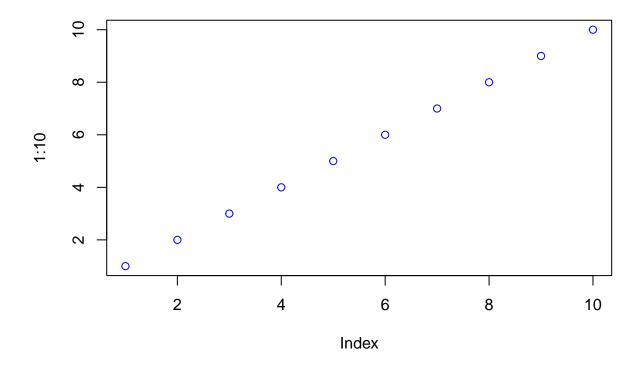

Level 2 Heading

I can write any text (italic) notes for **myself** (bold).

I can insert code (R, Python, etc.) with the **green C button**. I can run the code chunk with the **green play button**. I can **knit** the file to produce an output (html, PDF, etc.).

Example:

plot(1:10, col="blue")

Class 6

Today we learned about this and that.

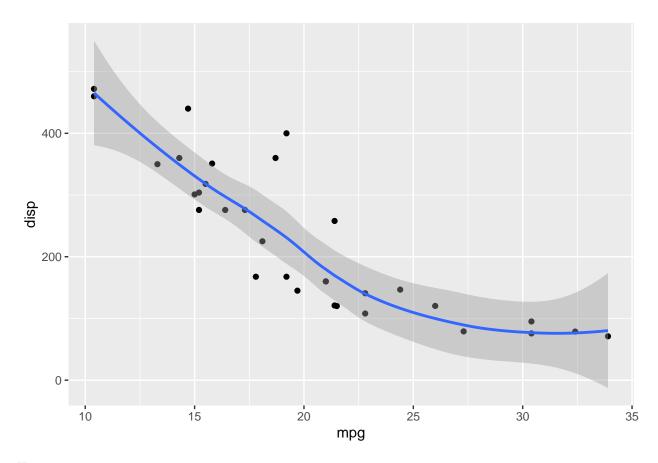

Here's my code:

mtcars

```
##
                        mpg cyl disp hp drat
                                                  wt qsec vs am gear carb

                                                                          8
## Volvo 142E
                       21.4
                              4 121.0 109 4.11 2.780 18.60 1 1
                                                                          2
```

```
library(ggplot2)
ggplot(mtcars) + aes(mpg, disp) + geom_point() + geom_smooth()
```

'geom_smooth()' using method = 'loess' and formula 'y ~ x'

Here are my notes:

YAY!
